(54) Title: METHOD OF AND SYSTEM FOR TRANSMITTING MESSAGING SERVICE MESSAGES BETWEEN TWO TELECOMMUNICATIONS SYSTEM USING DIFFERENT MESSAGE STRUCTURES

(57) Abstract: Different kinds of telecommunication systems exist, the systems supporting different kinds of messaging service message structures. In order to enable sending of a message from a sender (TS) in a first system (1) having a first structure for messages to a receiver (GS) of a second system (2) having a second structure for the messages, a bearer independent protocol is utilized (12) in the transmission of the message.
